Name of Organisation	Shenzhen Future Dynamics Co., Ltd.
Job Position	SDK Development Intern
Major Responsibilities	Contributed to software development for a dual-arm robot system involving VR teleoperation, constrained inverse kinematics, master–follower control and mobile-base execution. Worked on robot SDK integration, wheel-speed control, encoder-based odometry and ROS2–CAN command execution.

Period	Sep 2025 - Mar 2026
Mode of Employment	Full-time
Field of Employment	Engineering
Name of Organisation	AIRS Shenzhen
Job Position	Research Assistant
Major Responsibilities	Contributed to the dynamic balance control of a three-omni-wheel ballbot with a dual-arm upper body. Worked on cascaded PID balance control, LQR-based control analysis, centre-of-mass compensation for upper-body motion, ROS–CAN integration and safety handling for physical robot testing.
